

Magic Bubbles and Balloons

We believe that learning begins with curiosity and hope that our programs make you wonder why things work and how they can be manipulated.

Educational Programs
Play Stations
Performances

Schools - Libraries - Parties - Special Events - Festivals - Fairs - Adult Care Facilities – STEAM (science, technology, engineering, arts, math) - Summer Camps - City Organizations

Programs

Each presentation is customized and can include a 15-45 minute show.

Combine any show with the Magic Bubble Play Station and add Stilt Walking or Balloon Twisting!

MAGIC SCIENCE SHOW

A presentation of chemistry and physics demonstrations that will inspire learning and creation by the use of applied knowledge. A world where the impossible is possible. When you understand the science behind how the world works you can manipulate it in wondrous ways.

MAGIC BUBBLE SHOW

A traditional indoor bubble show demonstrating bubble manipulation and introducing bubble chemistry. This is the perfect show for a large audience. This program includes tricks such as bubble within a bubble, the caterpillar, square bubbles, bubble table, vertical plane, and person in a bubble.

MAGIC BALLOON SHOW

A stage show demonstrating simple and complex balloon sculptures. Simple balloon animals transform into larger sculptures before your very eyes. We'll be twisting everything from poodles to Alpacas. Expect speed twisting, tips, and tricks.

MAGIC BUBBLE PLAY STATION

This is the perfect addition to any special event. We provide everything that is needed including bubble wands, hoops, and tables so that everyone can play. We feel that this activity provides teaching opportunities in cooperation and chemistry. With a bubble solution formula based on science we are witnessing one of nature's thinnest and strongest geometric shapes. This activity is best suited to an outdoor area.

STILT WALKING

A great way to entertain a large audience. With performance experience at music festivals, street fairs, corporate events, and parades we can welcome guests, pose for pictures, twist balloons, or blow bubbles from high above.

BALLOON TWISTING

Watch as we transform a simple balloon into a work of art. We twist designs such as dogs, wands, hats, airplanes, monkeys, lady bugs, flowers, and corsages.

Festival Package

We seek to bring bubbles where ever they are needed through a curated play station and strategically placed “free play” stations. On day one we would start off welcoming and entertaining attendees waiting in line for wristbands. Then open each day at noon as a bubble play station in kidzones or music stages and continue throughout the afternoon with educational workshops or performances. In the evening, a sunset stilt walking performance rounds out the day. We would also provide balloon twisting for all ages. We are currently booking festivals for the upcoming summer and are able to provide our welcome show and a curated play station throughout the venue for 8 hours each day during your event. Combine with 1 or more programs or include stage shows.
